Monthly Revenue by Region

Jakarta generated the highest revenue in January, primarily driven by strong sales of Roti Bakar. Comparing revenue across regions helps identify high-performing markets and potential areas for expansion or marketing focus.

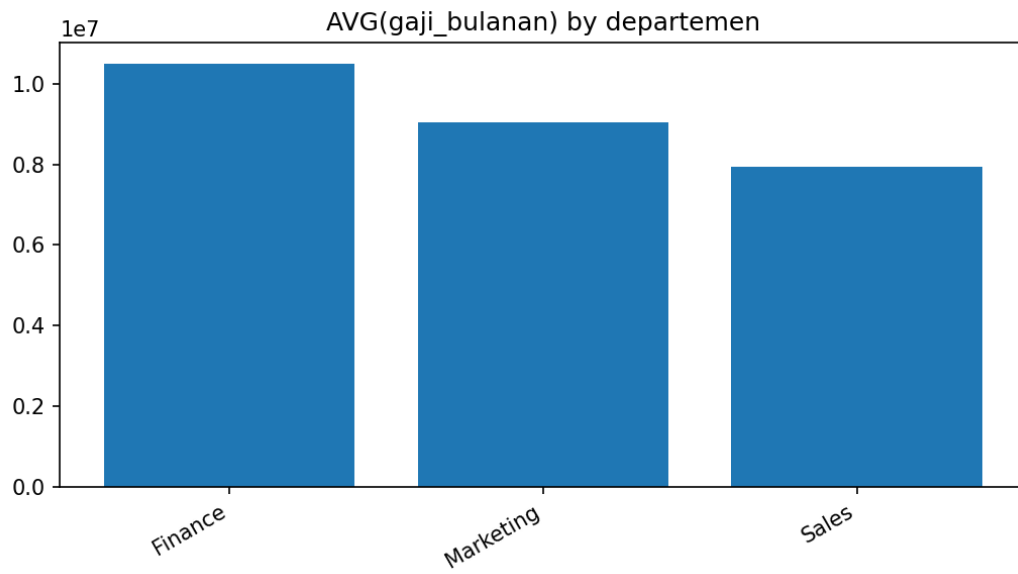

bulan	region	produk	qty_terjual	harga_satuan	total_revenue
Jan	Jakarta	Kopi Susu	16	18000	288000

Average Monthly Salary by Department

Analyzing the average monthly salary across different departments helps identify potential pay disparities and ensures competitive compensation structures. The Sales department shows slightly lower average salaries compared to Marketing, which may require review during budget planning or performance bonuses allocation.

nama	departemen	region	gaji_bulanan	tahun_bergabung
